

# IHealth change journey roadmap

## Unit Care Team -Nursing, Clinical Staff, NUAs, HCAs, Allied Health

### Learning about IHealth: Change is on the way

IHealth is a big change... what's it about?

- Learn what IHealth is about and 'why' it's happening
- Talk with your manager, bringing questions
- Get ready to participate in kick-off events, meetings and Q&A sessions
- Find out how IHealth affects your workflow

I'm super busy, but I'm going to find out why this change is coming.

### Connect to Purpose: "Why IHealth?"

#### Getting curious, building momentum

- Learn more specifics on how the change impacts patients and their care
- Take part in readiness surveys
- Find out more from posters, email updates and team huddles
- Visit the IHealth website for stories of how other sites managed the transformation

I really want to be part of a successful change.

### Ongoing learning and feedback

- Reach out to Clinical Informatics for a Skills Sharpener session
- Take part in surveys and share your ideas and feedback
- Become a peer mentor to help others and continue learning

IHealth website:  
[ihealth.islandhealth.ca](http://ihealth.islandhealth.ca)

- Learn more about the IHealth project
- Access resources
- Connect with IHealth team

3

### Testing skills, gaining confidence

#### I'm learning how it works

- Complete the training modules
- Reach out for help when uncertain
- Speak up and share what you know with colleagues
- Seek answers to questions that are more detailed

Go-Live

I'm getting more comfortable with what's coming, but still worry a bit about go-live.

4

### Learning becomes practice

#### Tips, advice and skill sharpening

- Turn to peer mentors for at-the-elbow support
- Call Clinical Informatics when you have issues
- Attend Skills Sharpener sessions

I am finding help for my learning when I need it - knowing who to talk to relieves some stress.

### Refining and improving

#### Confidence and efficiency builds

- Continue to reach out for support when needed
- Stay up to date through tips and refreshers
- Provide feedback and ideas in post-activation surveys
- Celebrate the success of your team!

The tips and tricks that I apply make me quicker and more proficient.

5

### Signs of success:

- Speed and efficiency in using system
- Patients have positive feedback
- Quality and safety of patient care improves
- Collaboration with other providers on patient care becomes more efficient
