

Coming Friday June 24:

New Patient Flow System Cerner Capacity Management (CCM)

Cerner Capacity Management, which works with the electronic health record, will replace TeleTracking at *RJH* and *VGH*.

This change applies to:

- Clinical and Allied Health Staff
- Environmental Services
- Patient & Materiel Porters
- BioMed

CCM benefits include:

- Greater transparency of patient flow
- Integrated with PowerChart, FirstNet, PM Office and other Cerner applications
- Ability to order equipment electronically
- Real-time updates of portering and housekeeping status

RESULT: improved quality of patient care

Stay tuned for more details about training opportunities!
