Dragon – Basic Commands

Dragon Commands will help you get the most out of using your Dragon.

Corrections:

Spoken Form	Description
“What Can I Say”	At any time, you can say the command “What Can I Say” to have Dragon display a short list of applicable commands. You can then say any of those commands
“Add word”	Adds word to your vocabulary
“Select [TEXT]”	Selects the specified text (NOTE: say command without a pause)
“Select [Text] through [Text]”	Selects the specified text (NOTE: say command without a pause)
“Deselect that”	Cancel the selection
“Delete that” or “Scratch that”	Deletes last thing said
“Undo that”	Reverses last action
“Cap that”	Capitalizes the letter of each selected word or all the words of the last thing you said

Formatting:

Spoken Form	Description
“New line”	Adds one new line
“New paragraph”	Adds two new lines
“Bold that”	Makes the selected text bold
“Italicize that”	Makes the selected text italic
“Underline that”	Makes the selected text underlined

Navigation:

Spoken Form	Description
“Insert after [TEXT]”	Places cursor focus after specified text
“Insert before [TEXT]”	Places cursor focus before specified text
“Go to end of sentence”	Navigates to the end of sentence with the cursor focus
“Go to end of paragraph”	Navigates to the end of paragraph with the cursor focus
“Go to start of paragraph”	Navigates to the start of paragraph with the cursor focus
“Go to start of sentence”	Navigates to the start of sentence with the cursor focus
“Go to end”	Navigates to end of field
“Transfer text”	Transfers text from Dragon Dictation box to field where cursor is
