

Applies to:	Clinicians sending patients to the Operating Room or Endoscopy at CDH
Purpose:	To understand which pre op PowerForm to complete for inpatients or emergency patients

Sending a patient to the operating room for a surgical procedure:

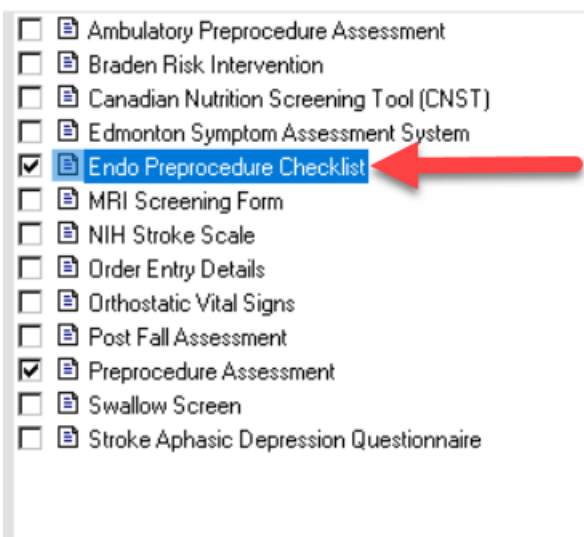

- Complete the relevant fields in the **Preprocedure Assessment** PowerForm.

A screenshot of a checklist interface. The items are listed with checkboxes and document icons. The item 'Preprocedure Assessment' is checked and highlighted in blue, with a red arrow pointing to it from the right. Other items include COVID-19 Pre-Procedure Screening, Endo Preprocedure Checklist, Minor Surgery Intake AMB, Intraop Checklist, Risk of Violence Screening Tool, Behavioural Care Plan, History of Violence Alert, Advance Care Planning/Goals of Care, ARD Screener, and Post Fall Assessment.

Sending a patient to the operating room for an endoscopy procedure (example: colonoscopy)

- Complete the **Endo Preprocedure Checklist** PowerForm

A screenshot of a checklist interface. The items are listed with checkboxes and document icons. The item 'Endo Preprocedure Checklist' is checked and highlighted in blue, with a red arrow pointing to it from the right. Other items include Ambulatory Preprocedure Assessment, Braden Risk Intervention, Canadian Nutrition Screening Tool (CNST), Edmonton Symptom Assessment System, MRI Screening Form, NIH Stroke Scale, Order Entry Details, Orthostatic Vital Signs, Post Fall Assessment, Preprocedure Assessment, Swallow Screen, and Stroke Aphasic Depression Questionnaire.

Access Powerforms by clicking **Adhoc**  on the toolbar and looking in the **Assessments** folder
