

# Attention Health Care Innovators

Are you ready to revolutionize health care education and drive change at the forefront of technology and patient care?

We are excited to invite passionate and dedicated individuals to become a member of the Clinical Transformation Team (CTT)!

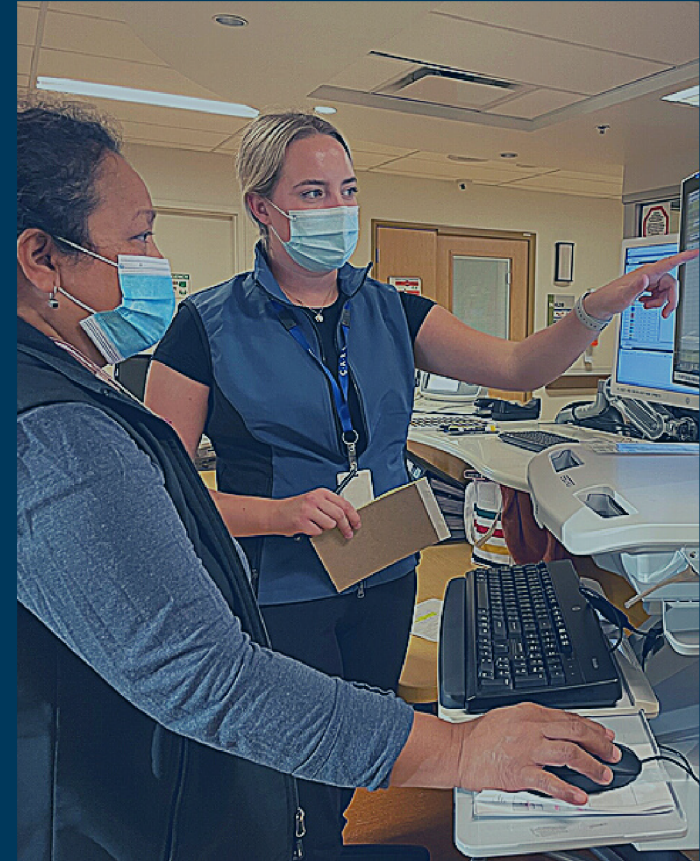

## Who We Are:

At the heart of health care transformation, we are a dynamic team of educators, innovators, and mentors.

Our mission? To empower health care professionals, enhance learning, and champion the adoption of cutting-edge concepts and technologies.

Become part of the

# Clinical Transformation Team

## Why Join Us?

### Innovative Learning:

Dive into a world of innovation where creativity meets education. Be a part of shaping how health care professionals learn and adapt to new practices.

### Collaborative Environment:

Join a supportive community of like-minded individuals who believe in the power of education to drive change. Collaborate, share, and grow together.

### Impactful Work:

Every day, you'll be making a difference. Help our Peer Champions thrive, support seamless go-lives, and troubleshoot challenges, ensuring healthcare practices evolve with the latest advancements.

### Continuous Growth:

Embrace ongoing learning and development. Attend boot camps, access expert resources, and leverage cutting-edge tools to expand your skills and expertise.

## What You'll Do

As a member of the Clinical Transformation Team, you'll be at the forefront of educational support.

From facilitating engaging learning sessions to collaborating closely with Unit Clinical Nurse Educators (CNEs) and leveraging IHealth Team expertise, your role will be dynamic and impactful.

## How To Apply

If you're passionate, forward-thinking, and ready to make an impact, we encourage you to get in touch with us!

Our job postings can be found on VI-Hire, where you can explore exciting opportunities to join our team.

We look forward to connecting with you and discovering how you can contribute to our mission.

**Join us in reshaping  
the future of health care—  
one innovative lesson at a time!**
