

My IHealth Journey

CLINICIANS

You will be assigned a training pathway based on your role and/or specialty. Log in to your Learning Journey in the [IHealth Learning Hub](#) to review and complete your assigned training. Please reach out to your peer mentor, manager or educator for more information.

Stage 1

eLearning Modules

A mix of **mandatory** and supplementary modules.

Get to know the look, feel and basic screens in the new system, including concepts, tools and workflows.

eLearning modules are foundational learning before Self-Directed Online Learning.

Please reach out to your peer mentor, manager or educator for more information.

To access your learning, log into your personal learning profile.

Series of modules
Avg: 2 hours total
(10-20 mins/module)

Stage 2

Self-Directed Online Learning

Mandatory self-paced online learning to give you the knowledge and hands-on skills to be successful. Essential to complete before your next learning activity.

An assessment will take place at the end of online learning.

To access your learning, log into your personal learning profile.

Role dependent
Avg: 3-6 hours total

Stage 3

Facilitated Workflow Reviews

Mandatory or supplementary review of high-priority workflows including patient transitions.

OR

Skill Sharpeners

Mandatory and supplementary role and scenario-based sessions that mimic "a day in a life" activities within the Cerner EHR system. Sessions are completed in your clinical area, one-to-one or in small groups.

You will receive information from your leadership team or Peer Mentors.

Specialty & role dependent
Avg: 4 hours total

Stage 4

Ongoing Practice

Optional self-directed practice in the Cerner EHR. Using materials and resources from previous stages of learning to help solidify your new knowledge leading up to go-live.

Legend:

- Online
- In-Person
- Required

VGH/GRH/SISC Tertiary Activation

Go Live on September 14

Your Go-Live support:

1. At-the-elbow floor support
2. Virtual clinical user support centre
3. On-site and remote clinical and technical experts
4. IHealth leaders available to collaboratively address reported risks, safety issues and Patient Safety and Learning System (PSLS) issues that require immediate attention

Note: Current PSLS reporting processes will continue as usual.

Scan for digital version

Please note!

Some clerks and pharmacists will need instructor-led training after learning modules. You will be contacted for scheduling if you require this training. If you already have access to the Cerner EHR, your training requirements will be individualized based on the requirements of your work and position.
