

We're going electronic

IHealth

This facility will continue its move from old systems and paper-based charts to electronic patient records to improve the safety, quality and consistency of care.

Your appointment may take longer than usual as staff are adapting to the new system. Thank you for your patience during this time.

Some changes you might see:

- Your care team may spend more time on devices, such as computers on wheels
- Extra support staff on hand
- A new check-in process for every appointment. Look for signs and volunteers to guide you

Expected benefits:

- Care teams with real-time access to information for more seamless communication about patients
- Less time repeating information
- A safer medication management process

Our focus continues to be providing quality care to you.
